

State Route 180 Sequoia Freeway Segment 3 Fresno County

Project Purpose:

The project proposes to extend a new multi-lane freeway on Route 180 in Fresno from Clovis Avenue to Temperance Avenue. The project will facilitate better traffic flow within this urban area. Existing State Route 180 links the eastern Fresno County communities and National Park areas with the regional services located in Fresno. The route serves as the primary agricultural goods movement in eastern Fresno County and is of growing importance for commute travel from the surrounding rural areas and neighboring communities to the Fresno metropolitan area.

Project Description:

The project is located in Fresno on Route 180, from Clovis Avenue to east of Temperance Avenue. This project proposes to construct a 6-lane freeway from Clovis Avenue to Fowler Avenue on a new 8-lane right of way alignment and construct a 4-lane freeway from Fowler Avenue to east of Temperance Avenue on a new 6-lane right of way alignment.

Construction Cost: \$71 Million

Begin Construction: Winter 2007

End Construction: Winter 2010

Funding Sources: State Transportation Improvement Program (STIP), the Governor's Transportation Congestion Relief Program (TRCP), and Fresno County Transportation Authority (FCTA)

Agency Partners: Caltrans, Council of Fresno County Governments, Fresno County Transportation Authority
